Konu: Endonezya / Halı ve Tekstilden Diğer Yer Kaplamaları Korunma Önlemi

Sayın Üyemiz,

Bilindiği üzere, Endonezya tarafından “Halılar ve Tekstilden Diğer Yer Kaplamaları” (57’nci fasılda yer alan) ithalatına karşı uygulanmakta olan korunma önleminin uzatılmasına ilişkin bir gözden geçirme soruşturmasının başlatıldığı daha önceki duyurumuz ile iletilmişti.

T.C. Ticaret Bakanlığı tarafından iletilen yeni yazıda, bu defa, 24 Ağustos 2023 tarihinde Dünya Ticaret Örgütü (DTÖ) Korunma Önlemleri Komitesine mezkur soruşturmanın başlatıldığına ilişkin ekte yer alan bildirim yapıldığı belirtilmektedir.

Söz konusu bildirim incelenmesinden, ekli yazımız ile iletilen hususlara ilave olarak; ilgili tarafların kanıt ve görüşlerinin sunulabilmesini teminen 12 Eylül 2023 tarihinde bir kamu dinleme toplantısının düzenleneceği, söz konusu toplantıya katılmak isteyenlerin yazılı görüş veya kanıtlarını 8 Eylül 2023 tarihine kadar soruşturma makamına sunmalarının gerektiği anlaşılmaktadır.

Bilgilerini rica ederim.

H. Okan ŞENEL
Genel Sekreter Yrd.

Konu: Endonezya / Halı ve Tekstilden Diğer Yer Kaplamaları Korunma Önlemi

Sayın Üyemiz,

T.C. Ticaret Bakanlığından iletilen bir yazıda, Endonezya tarafından “Halılar ve Tekstilden Diğer Yer Kaplamaları” (57’nci fasılda yer alan) ithalatına karşı, spesifik vergi şeklinde metrekare başına ilk yıl 85.679 Rp., ikinci yıl 81.763 Rp. ve üçüncü yıl 78.027 Rp. olmak üzere 17 Şubat 2021 tarihinden bu yana bir korunma önlemi uygulanmakta olup ülkemizin halihazırda önleme tabi olduğu belirtilmektedir.

Yazıda devamla, Cakarta Ticaret Müşavirliği’nden alınan bir yazıya atıfla bu defa, Endonezya Ticaret Bakanlığı Koruma Komitesince (KKPI) iletilen 18 Ağustos 2023 tarihli ve 118/KPPI/08/2023 sayılı yazı ile (Ek 1), Endonezya’nın 2022 yılı tarife sınıflandırmasına göre 57’nci fasılda yer alan 64 GTP altındaki “Halılar ve Diğer Tekstil Zemin Kaplamaları” ithalatına yönelik koruma önleminin uzatılmasına ilişkin gözden geçirme soruşturmasının başlatıldığına dair bildirimde bulunulduğu belirtilerek; mezkur soruşturmaya dair duyuru (Ek 2), başvurunun gizli olmayan özeti (Ek 3) ile gayri resmi tercüme (Ek 4 ve Ek 5) iletilmekte olup, ilgililerin taraf olma ve diğer taleplerini soruşturma başlangıç tarihinden itibaren 15 gün içerisinde (1 Eylül 2023’e kadar) mezkur Komite yazısında belirtilen adrese iletmeleri gerektiği belirtilmektedir.

Bilgilerini rica ederim.

TENTANG

**DIMULAINYA PENYELIDIKAN PERPANJANGAN TINDAKAN PENGAMANAN
PERDAGANGAN (SAFEGUARD MEASURES)
TERHADAP IMPOR BARANG
"KARPET DAN TEKSTIL PENUTUP LANTAI LAINNYA"**

Bersama ini diberitahukan bahwa Komite Pengamanan Perdagangan Indonesia (KPPI) melakukan penyelidikan perpanjangan Tindakan Pengamanan Perdagangan terhadap impor barang **Karpet dan Tekstil Penutup Lantai Lainnya**. Penyelidikan tersebut dilakukan atas permohonan secara resmi dari Asosiasi Pertekstilan Indonesia (API) mewakili PT. Universal Carpet And Rugs, PT. Classic Prima Carpet Industries, dan PT. Anugrah Esa Mulia yang diajukan kepada KPPI pada tanggal 15 Agustus 2023. API meminta KPPI untuk melakukan penyelidikan perpanjangan Tindakan Pengamanan Perdagangan (*Safeguard Measures*) terhadap impor barang **Karpet dan Tekstil Penutup Lantai Lainnya** yang termasuk ke dalam pos tarif Bab 57 dengan 64 (enam puluh empat) nomor *Harmonized System* (HS) 8 digit, sesuai dengan Buku Tarif Kepabeanan Indonesia (BTKI) Tahun 2022. Alasan Pemohon meminta dilakukan penyelidikan perpanjangan karena Pemohon masih mengalami Kerugian Serius atau Ancaman Kerugian Serius dan masih memerlukan tambahan waktu untuk menyelesaikan program penyesuaian struktural secara optimal sebagaimana yang telah dijanjikan sebelumnya.

Setelah dilakukan penelitian atas permohonan dimaksud, KPPI memperoleh bukti awal yang mengindikasikan masih terjadinya Kerugian Serius atau Ancaman Kerugian Serius dan belum optimalnya realisasi penyesuaian struktural. Oleh karena itu, Pemohon masih membutuhkan tambahan waktu untuk menyelesaikan program penyesuaian struktural tersebut.

Sehubungan dengan hal tersebut dan berdasarkan Peraturan Pemerintah Republik Indonesia Nomor 34 Tahun 2011 tentang Tindakan Antidumping, Tindakan Imbalan, dan Tindakan Pengamanan Perdagangan, maka KPPI menetapkan dimulainya (inisiasi) penyelidikan perpanjangan Tindakan Pengamanan Perdagangan (*Safeguard Measures*) terhadap impor barang **Karpet dan Tekstil Penutup Lantai Lainnya** sejak tanggal Pengumuman ini.

Sehubungan dengan hal tersebut, KPPI mengundang semua pihak yang memiliki kepentingan (*interested parties*) untuk mendaftarkan diri selambat-lambatnya 15 (lima belas) hari sejak tanggal dimulainya (inisiasi) penyelidikan perpanjangan atau tanggal 1 September 2023 dan disampaikan secara tertulis kepada:

C. PROPORSI PRODUKSI PEMOHON

Tabel 1. Jumlah Produksi dan Proporsi Produksi Tahun 2022

Uraian	Proporsi (%)
PT. Universal Carpet And Rugs	45,72
PT. Classic Prima Carpet Industries	22,56
PT. Anugerah Esa Mulia	2,09
Produksi Pemohon	70,36
Produksi Non-Pemohon	29,64
Produksi Nasional	100

Note: Konversi 1 ton = 633 meter²

Sumber: Data anggota Asosiasi dan Pemohon

Total produksi Pemohon pada tahun 2022 adalah 70,36 % terhadap total produksi nasional.

Berdasarkan data dalam tabel 1 di atas, hal ini telah sesuai dengan ketentuan Peraturan Pemerintah (PP) 34 tahun 2011 tentang tindakan Anti-Dumping, Tindakan Subsidi, dan Tindakan Pengamanan Perdagangan Bab I Pasal I ayat 18, dimana produksi Pemohon merupakan proporsi yang besar dari keseluruhan produksi Karpét dan tekstil penutup lantai lainnya di Indonesia, sehingga memenuhi syarat sebagai IDN dalam hal Tindakan Pengamanan.

Perlu kami informasikan beberapa perubahan yang terjadi sejak diterbitkannya PMK Nomor 10/PMK.010/2021. Pada tahun 2021, salah satu pemohon sebelumnya, PT. Velvet Tekstil Indonesia telah berhenti operasi sejak September 2021 dikarenakan banjirnya produk impor yang menghambat perkembangan industri karpét dalam negeri sedangkan PT. Admiralindo Bintang Terang telah menghentikan operasi komersial sejak Oktober 2021 karena mengalami akumulasi kerugian besar selama beberapa tahun. Hal ini disebabkan oleh masuknya barang-barang impor yang membanjiri pasar Indonesia. Kerugian ini terlalu berat bagi perusahaan tersebut untuk melanjutkan operasi.

2. Karakteristik Fisik

Barang produksi pemohon memiliki karakteristik fisik sebagai berikut:

a. Barang Produksi Pemohon

Standarisasi yang digunakan Pemohon untuk memproduksi dan uji teknis Karpet dan Tekstil Penutup Lantai Lainnya mengacu kepada standar nasional maupun

berbeda dengan karpet lainnya hanya ukuran dan ketebalan tergantung jenis dan kelas kendaraannya sedangkan warna mengikuti warna kendaraan dengan motif sederhana. Kategori jenis karpet dan penutup lantai tekstil lainnya terdiri dari:

(a) Permadani (rugs)

(b) Kesetan (doormat)

(c) Karpel Dapur (Kitchen Mat)

(d) Karpel Wall to Wall (Wall to Wall carpets rolls)

(e) Karpel Tile

(f) Sajadah Rol (Prayer Rugs in rolls)

(i) Karpet Rumpuk Buatan

(j) Karpet Automotive

Semua jenis karpet yang seperti di atas bisa diproduksi dengan ukuran dan ketebalan bermacam-macam atau bisa diproduksi sesuai pesanan.

b. Barang Impor

Karakteristik fisik karpet dan tekstil penutup lantai lainnya yang diimpor sama persis dengan yang diproduksi Pemohon.

3. Kegunaan Barang

Barang produksi pemohon memiliki kegunaan sebagai berikut:

a. Barang Produksi Pemohon

Penggunaan Karpet dapat dimanfaatkan untuk mendefinisikan sebuah ruang, hal ini akan sangat terasa manfaatnya pada ruang terbuka diantaranya ruang tamu,

ruang duduk, ruang makan dan ruang lainnya yang kadang hadir tanpa sekat. Penggunaan karpet juga dapat digunakan sebagai interior pada sebuah ruangan yang dapat meredam kebisingan, mencegah polusi udara, memberikan rasa kehangatan, kenyamanan dan kedekatan diantara keluarga sewaktu rebahan di lantai ruangan yang berkarpet. Karpet digunakan untuk perumahan, apartemen, perkantoran, restoran, hotel, project, bandara serta gedung bioskop.

Modifikasi jenis karpet yang sekarang banyak digunakan yaitu karpet tile menyerupai tile/ubin dengan lapisan dasar karet dalam bentuk perlembaran. Karpet Tile ini selain untuk kenyamanan juga untuk estetika karena dapat disusun sejajar dan juga bisa disusun vertikal horizontal, sehingga terlihat corak yang dapat memperindah ruangan. Selain itu karpet tile/ubin memudahkan penggantian bilamana ada bagian tertentu yang rusak atau kotor tidak perlu mengganti semua, cukup bagian tertentu saja yang rusak/kotor, mudah untuk instalasi lainnya seperti kabel listrik dan lain-lain, mudah diangkut pada gedung-gedung tinggi, menjaga temperatur ruangan dan menambah estetika sebuah bangunan.

Untuk jenis karpet rumput buatan ini cukup praktis karena dapat diletakkan di pekarangan rumah dan bisa dipasang dilapangan olahraga sebagai pengganti rumput alam. Karpet juga biasanya digunakan untuk automotive/kendaraan sebagai alas untuk meredam suara dan estetika dan kenyamanan.

Karpet sejenis sajadah merupakan benda yang dimiliki setiap rumah terutama umat muslim. Sajadah biasanya digunakan sebagai alas untuk sholat, baik sholat yang dilaksanakan di rumah-rumah, di mesjid-mesjid maupun yang dilaksanakan di tanah lapang pada saat sholat hari raya dengan memberikan rasa kelembutan, kenyamanan, dan kekhusyukan dalam beribadah.

b. Barang Impor

Kegunaan dari barang impor karpet dan tekstil penutup lantai lainnya sama dengan yang diproduksi Pemohon.

4. Bahan Baku

Barang produksi Pemohon memiliki bahan baku, sebagai berikut:

a. Barang Produksi Pemohon

Bahan baku yang digunakan Pemohon untuk memproduksi karpet dan tekstil penutup lantai lainnya adalah berasal dari *polypropylene*, *polyester*, *nylon*, *poly acrylic*, wol, *cotton*, PE, *acrilyc*, TC, jute dan benang sintetis maupun benang lainnya. dikarenakan untuk pekerja yang memiliki potensi memerlukan pengeluaran yang lebih besar dan kondisi Perusahaan saat ini sedang tahap pemulihan dan pasar industri dalam negeri masih dibanjiri produk yang bukan produksi dalam negeri.

- c. Mulai produksi barang baru berkualitas tinggi yang telah diterima dengan baik di pasar. Meluncurkan produk baru yang memiliki keunikan, atau nilai tambah yang dapat memuaskan konsumen dengan produk berkualitas tinggi tetapi harganya lebih terjangkau dengan realisasi sebesar 58,33% dan 41,67% belum terealisasi.
3. Pengembangan SDM dengan memberikan pelatihan dalam rangka meningkatkan keahlian dan performa tenaga kerja.
- a. Melakukan pelatihan pengoperasian mesin baru dengan cara mendatangkan trainer dari luar negeri sudah terealisasi 26,67%. Adapun belum terealisasinya sebesar 73,33% dikarenakan pada pengenaan BMTP tahun pertama sulit mendatangkan trainer dari luar negeri akibat pandemi covid 19.
 - b. Melakukan pelatihan perbaikan mesin teknologi baru. Kami belum bisa mengadakan pelatihan dari tenaga ahli dikarenakan mesin baru belum seluruhnya di instalasi dan belum beroperasi. Sehingga realisasi baru sebesar 30,56%.
 - c. Meningkatkan jumlah pelatihan karyawan untuk meningkatkan skill mereka. Tidak ada pelatihan dari tenaga ahli tetapi kami melakukan program pelatihan yang dilakukan oleh pelatih senior secara rutin, yang sudah terealisasi 68,33% dan belum terealisasi 31,67%

Total pencapaian penyesuaian struktural pemohon adalah 57,72%, terdapat beberapa penyesuaian struktural yang belum terealisasi. Berdasarkan hal tersebut, program penyesuaian struktural namun terdapat kendala sehingga terdapat hal yang belum secara optimal untuk dilakukan oleh Pemohon. Dikarenakan masih banyaknya barang impor karpet dan tekstil penutup lantai lainnya masih memberikan pengaruh terhadap belum optimalnya pelaksanaan program Penyesuaian struktural yang menjadi penyebab terhambatnya pemulihan kerugian Pemohon.

ABOUT

COMMENCEMENT OF INVESTIGATION INTO THE EXTENSION OF TRADE SAFEGUARD
MEASURES
AGAINST THE IMPORT OF GOODS
"CARPETS AND OTHER FLOOR COVERING TEXTILES"

It is hereby informed that the Indonesian Safeguards Committee (KPPI) conducted an investigation into the extension of the Trade Security Measures against the import of Carpets and Other Floor Covering Textiles. The investigation was carried out at the official request of the Indonesian Textile Association (API) representing PT. Universal Carpet And Rugs, PT. Classic Prima Carpet Industries, and PT. Anugrah Esa Mulia submitted to KPPI on August 15, 2023, API asked KPPI to investigate the extension of Trade Security Measures (*Safeguard Measures*) against imports of Carpets and Other Floor Covering Textiles included in the Chapter 57 tariff post with 64 (sixty-four) *Harmonized System* numbers (HS) 8 digits, according to the Indonesian Customs Tariff Book (BTKI) Year 2022. The reason why the Applicant requested an extension investigation is because the Applicant is still experiencing Serious Losses or Threats of Serious Losses and still requires additional time to optimally complete the structural adjustment program as previously promised.

After conducting research on the application, KPPI obtained preliminary evidence indicating that there was still a Serious Loss or Threat of Serious Loss and the realization of structural adjustments had not been optimal. Therefore, the Applicant still needs additional time to complete the structural adjustment program.

In connection with this and based on the Government Regulation of the Republic of Indonesia Number 34 of 2011 concerning Antidumping Measures, Reward Measures, and Trade Security Measures, KPPI stipulates the initiation of an investigation into the extension of Trade Security Measures (*Safeguard Measures*) on the import of Carpets and Other Floor Covering Textiles from the date of this Announcement.

In this regard, KPPI invites all interested parties to register no later than 15 (fifteen) days from the date of commencement (initiation) of the extension investigation or September 1, 2023 and submit in writing to:

A. GENERAL

In connection with the imminent end of the implementation of the *imposition of Trade Safeguard Measures based on the Minister of Finance Regulation (PMK) Number 10/PMK.010/2021* concerning the Imposition of Import Duties on Security Measures on Imports of Carpet Products and Other Floor Covering Textiles, and considering that there are still many similar or directly competing imported products that have an impact on hampering the recovery of serious losses and affect not yet Optimal implementation of structural adjustments in an effort to increase competitiveness with similar imported products.

In this case, the Indonesian Textile Association, or abbreviated as API hereinafter referred to as the Applicant, represents 3 (three) API member companies as the Domestic Industry (IDN) producing carpets and other floor covering textiles, namely PT. Universal Carpet And Rugs, PT. Classic Prima Carpet Industries and PT. Anugerah Esa Mulia hereby submits an application for an investigation of Trade Security Measures (*Safeguard Measures*) to the Indonesian Trade Security Committee (KPPI) in order to be applied to the extension of the imposition of Trade Security Measures in the form of Import Duties on Security Measures (BMTP) on imports of carpets and other floor covering textiles.

To support the application that we submitted, the completeness of the initial evidence of the application has been prepared and supported by the required documents in accordance with the provisions of Government Regulation Number 34 of 2011 (PP 34/2011) concerning Antidumping Measures, Compensation Measures and Trade Security Measures and Decree of the Minister of Industry and Trade of the Republic of Indonesia Number 85 of 2003 (Kepmenperindag 85/2003) concerning Procedures and Requirements for Requesting Investigation of Security Domestic Industry from Due to Surge in Imports.

Source: Association and Applicant member data

The total production of the Applicant in 2022 is 70.36% of the total national production.

Based on the data in table 1 above, this is in accordance with the provisions of Government Regulation (PP) 34 of 2011 concerning Anti-Dumping Measures, Subsidy Measures, and Trade Security Measures Chapter I Article I paragraph 18, where the Applicant's production constitutes a large proportion of the overall production of carpets and other floor covering textiles in Indonesia, thus qualifying as IDN in terms of Security Measures.

We need to inform you of some changes that have occurred since the issuance of PMK Number 10/PMK.010/2021. In 2021, one of the previous applicants, PT. Velvet Tekstil Indonesia has stopped operating since September 2021 due to a flood of imported products that hinder the development of the domestic carpet industry while PT. Admiralindo Bintang Terang has ceased commercial operations since October 2021 due to accumulated heavy losses over several years. This is due to the influx of imported goods that flood the Indonesian market. This loss was too heavy for the company to continue operations.

All types of goods produced by IDN have gone through technical tests of high durability (durability), durability, fire resistance, color fastness and have export quality and the company has currently innovated anti-bacterial technical test goods.

The physical characteristics of the Applicant's Goods Production, namely carpets and other floor covering textiles, consist of a fluffy top layer woven to attach to the base (*jute*) and coated with latex at the bottom.

There are also carpets consisting of a fluffy top layer knitted into the base fabric (primary backing) resulting in a semi-finished item (soft carpet). Furthermore, the bottom layer is in the form of fabric or woven plastic / jute but with new technology this variation increases by using non-slip rubber, Non woven felt, SBS, TPR, and PVC (for the type of Carpet Tile). There are accessories (lace/frigging, labels, and emblems) or no accessories

Prayer rugs that are commonly used in Indonesia, one of which is a prayer rug with a feathered top layer woven to attach to the base. The second type of prayer rug used in Indonesia is a thin woven prayer rug without a hairy layer. In general, prayer mats are tufted.

In general, carpet fur is made of synthetic yarn, namely *polypropylene*, *polyester*, *TC*, *PE*, *nylon*, *acrylic* and non-synthetic such as *wool*, *cotton* and *jute*. There are two types of fluffy carpets, namely printing and non-printing.

The type of carpet that uses *solution dyed yarn* and can be printed as well. Physical characteristics do not differ that differ are shades, colors, and variations of threads, variations of backing. Some thread variations are cut and some are *loop* (circular) and can be a combination of both.

Another type of carpet is an Artificial Grass Carpet from synthetic materials that can withstand water, rainwater and solar heat.

In addition, there is a type of Automotive / Option Mat carpet (OEM product). Not

3. Usability of Goods

The goods produced by the applicant have the following uses:

a. Goods produced by the applicant

The use of carpets can be used to define a space, this will be very beneficial in open spaces including living rooms, sitting rooms, dining rooms and other spaces

that are sometimes present without partitions.

Use Carpets can also be used as an interior in a room that can reduce noise, prevent air pollution, provide a sense of warmth, comfort and words between families when lying on the floor of a carpeted room. Carpets are used for housing, apartments, offices, restaurants, hotels, projects, airports and cinema halls.

Modifications to the type of carpet that is now widely used are tile carpets resembling tiles / tiles with a rubber base layer in the form of sheets. This Tile carpet is not only for comfort but also for aesthetics because it can be arranged parallel and can also be arranged vertically horizontally, so that it looks a pattern that can beautify the room. In addition, carpet tiles / tiles facilitate replacement when there are certain parts that are damaged or dirty do not need to replace all, just certain parts are damaged / dirty, easy for other installations such as electrical cables and others, easy to transport in tall buildings, maintain room temperature and add to the aesthetics of a building.

For this type of artificial grass carpet is quite practical because it can be placed in the yard of the house and can be installed on the sports field as a substitute for natural grass. Carpets are also commonly used for automotive / vehicles as a base to dampen sound and aesthetics and comfort.

A carpet like a prayer mat is an object that every house has, especially Muslims. Prayer mats are usually used as a base for prayer, both prayers carried out in homes, in mosques and carried out in the field during holiday prayers by providing a sense of tenderness, comfort, and solemnity in worship.

b. Imported Goods

The usefulness of imported carpets and other floor covering textiles is the same as that produced by the Applicant.

4. Raw Materials

The goods produced by the Applicant have raw materials, as follows:

a. Goods produced by the applicant

The raw materials used by the Applicant to produce carpets and other floor covering textiles are derived from *polypropylene, polyester, nylon, poly acrylic, wool, cotton, PE, acrylic, TC, jute and synthetic yarn and other yarns*. The layers used are latex, the first layer (Primary Carpet Backing), *the second layer (Secondary Carpet Backing) in the form of action back, non-slip rubber, Non woven felt, SBS, TPR, and PVC*.

index points to 52.81 index points in 2021, but there was a fairly high jump in 2022 to 150.50 index points.

The trend of increasing the number of imports of Goods Investigated relative to national production during 2020-2022 is 22.68%.

2. Import Share

Sum ber: Applicant

The following is an explanation of the Applicant's IDN performance indicators:

a. Production

The applicant's production volume has increased from 100 index points in 2020 to 102.89 index points in 2021. Although it increased during 2020-2021, in the following year the production volume decreased to 99.71 index points in 2022 from the previous 102.89 index points in 2021.

During the period 2020-2022, the Applicant's production volume decreased with a trend of 0.15%. The decrease in production volume occurred due to a decrease in demand for applicant products when imported goods filled the Indonesian market.

b. Domestic sales

Applicants' Domestic Sales increased from 100 index points in 2020 to 104.51 index points in 2021 and again decreased to 97.23 index points in 2022. During the period 2020-2022, Applicant's domestic sales decreased with a trend of 1.40%. The decline in domestic sales was due to the pressure of imported goods that flooded the Indonesian market.

c. Productivity

Applicant productivity in 2020 was 100 index points, while in 2021 productivity increased by 111.34 index points but in the following year in 2021 productivity decreased slightly to 110.75 index points. During the 2020-2022 period, there was a trend of increasing productivity by 5.24%. The increase in productivity is due to the decrease in the number of workers affected by the increase in imported goods.

d. Used Capacity

The Applicant's Used Capacity has increased by 100 index points in 2020 to 102.89 index points in 2021. The applicant increased production in 2021 because domestic carpet consumption was very large and increased from year to year while in 2022 used capacity decreased to 99.71 index points due to *decreased demand* due to increased imports. During the period 2020-2022, the Applicant's installed capacity of 100 index points is capable of production to meet local demand and avoid imported goods products flooding the Indonesian market.

e. Advantages/Disadvantages

In 2020 the Applicant's profit was 100 index points, but in 2021 it decreased its profit to 51.13 index points and in 2022 it increased slightly by 51.20 index

points but still lower than the profit in 2020. During the 2020-2022 period the Applicant experienced a decline in profits with a trend of 28.45%.

f. Workforce

Applicants lowered the workforce from 100 index points in 2020 to 92.41 index points in 2021. In 2022, there was a decline in the number of workers again to 90.03 index points. The Applicant was forced to lay off the workforce for efficiency due to decreased performance due to the onslaught of imported goods and was forced to stop production machinery due to a decrease in orders from customers who switched to buy similar imported products or compete with the Applicant's products.

g. Ending inventory

In 2020 the applicant's final inventory was 100 index points and then experienced a reduction in inventory in 2021 to 97.60 index points. However, then in 2022, final inventory increased to 109.40 index points due to declining sales and goods circulating in the market were imported goods so that the portion of market share was taken over by imported products.

G. MARKET SHARE

Table 6: Home Market Conditions

NO	DESCRIPTION	Unit	Year			Change (%)		Trend (%)
			2020	2021	2022	20/21	21/22	20-22

The market share of Applicants, which was originally 100 index points in 2020, decreased to 96.78 index points in 2021 and the Import market share in 2020 of 100 index points decreased to 51.39 index points in 2021. However, in 2022, the market share of Applicants has decreased, namely by

86.29 index points amid the import market share which continues to increase to 133.40 index points. During the period 2020-2022, the market share of Applicants decreased with a trend of 7.11%, while the Import market share experienced an increase in trend of 15.50%.

H. **STRUCTURAL ADJUSTMENT**

Since the enactment of BMTP based on the Minister of Finance Regulation (PMK) Number 10/PMK.010/2021 concerning the Imposition of Import Duties on Security Measures on Imports of Carpet Products and Other Floor Covering Textiles, the Applicant has made several structural adjustments in accordance with the commitments in the program plan contained in the final report of the results of the investigation of trade security measures against the import of carpet goods and other floor covering textiles as for the status of its implementation can be illustrated in the following table:

		new technology machines.		
		Increase the amount of employee training to improve their skills.	68,33	31,67
	Average		57,72	42,28

Source: Applicant

The percentage value of implementation can be described as follows:

- I. Improve the production technology system by purchasing machines with the most advanced models, and replacing old machines into newer machines so that production can be more efficient.
 - a. Search for information related to high efficiency and productivity machines. In improving the technology system, it must look for information related to high efficiency and productivity machines which have been realized 76.67%
 - b. Purchasing new machines has been realized 71.11% and has not been realized 28.89%
 - c. Installing and starting to operate new machines have been realized 54.44% and 45.56% have not been realized because the installation and operation of new machines requires the arrival of foreign technicians to provide exposure and training for operators and some spare parts sent have not yet arrived.
- J. Innovate products by adding product variations, as well as improving product quality to develop value-added sales in quality, functionality, or attractiveness to customers.
 - a. Conduct research to create samples of new goods that are acceptable in the market. The company has carried out product development, namely anti-bacterial carpets and changes or improvements in aesthetic aspects where 75.00% has been realized.
 - b. Develop samples of new goods and conduct testing to the market. In order to produce a completely new product and create major changes to the industry or society, the Applicant has conducted testing to the domestic market which has been realized 58.33% and has not been realized 41.67% because it still requires time and research and training for workers who have good competence. However, this is hampered because workers who have the potential to require greater expenditure and the Company's condition is

suffered by the Applicant from 2020-2022 as described in table 5 (performance indicators) and the still incomplete structural adjustments as described in table 7, the Applicant requests the Government of the Republic of Indonesia to extend the imposition of BMTP on the importation of imported carpets and other floor covering textiles.

J. WILLINGNESS TO COOPERATE

The applicant is willing to cooperate fully throughout the investigation process regarding the filing of an application in the context of the extension of the Imposition of Trade Security Measures on the import of carpet goods and other floor covering textiles
